Without having to
change the quartz crystal

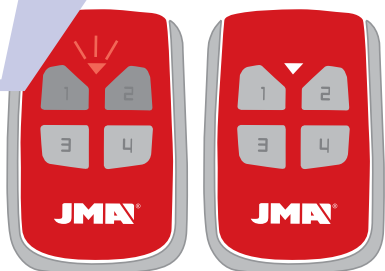

MULTI-FUNCTIONAL PC SOFTWARE JMAREMOTESPRO

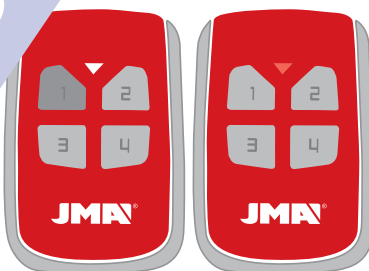

DUPLICATING SEQUENCE

1

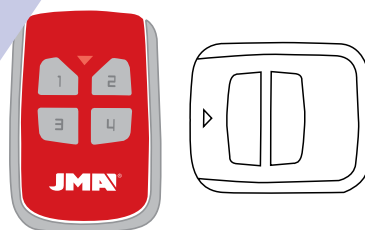

Press buttons 1 and 2 of the remote control copy simultaneously until the led flashes red. Release both buttons and wait for led red to turn off.

2

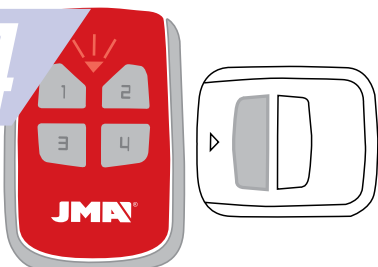

When the LED is off, press the button onto which you wish to make the copy. The LED will light up red.

3

Hold the original remote control against the new one.

4

Press the button on the original remote control you wish to copy. Hold the button until the LED on the new remote control flashes red.

5

When the LED turns off, the copy is completed.
